

### THE CITY OF SAN DIEGO

September 8, 2009

Hildred Pepper Jr.
Director of Purchasing & Contracting
City of San Diego

Subject: Central Stores Agreed-Upon Procedures Inventory Count – FY2009

\_\_\_\_\_

We performed the agreed-upon procedures for the FY2009 inventory count as required by San Diego Municipal Code §22.0501. The review consisted of comparing the City's physical inventory in its five storerooms to the inventory stock record. The agreed-upon procedures and the results of our work in the report attached were provided in draft to Central Stores for review and comments. Your response and other attachments that we received on September 8, 2009 can be found after page two of this report.

We conducted our work in accordance with Generally Accepted Government Auditing Standards. These standards provide guidance on performing and reporting on the results of agreed-upon procedures. By specifying the procedures we agreed to perform, Purchasing & Contracting is responsible for ensuring that the procedures are sufficient to meet their purposes, and we make no representation in that respect. Our review is intended solely for the information and use of the management of the City and is not intended to be and should not be used by anyone other than these specified parties.

We would like to thank Central Stores staff for their assistance and cooperation during the audit. City Audit staff members who participated in the preparation of the report included Tricia Mendenhall, Farhat Popal, and Kyle Elser.

Sincerely,

Eduardo Luna

City Auditor

Andrea Tevlin, Independent Budget Analyst

# Central Stores Agreed-Upon Procedures Inventory Count – FY2009

## **Background**

Central Stores

Central Stores is a division of Purchasing & Contracting, which reports to the Assistant Chief Operating Officer. The Division contracts with vendors to supply frequently used materials and to sell these materials to City departments. In addition, Central Stores assesses a 5 percent surcharge on sales to offset its administrative expenses.

Central Stores administers five storerooms, three of which are operated and staffed by the San Diego Police Department, the San Diego Fire Department, and Library Department.

San Diego Municipal Code

Section 22.0501 (Storerooms—Stock Records—Inventory) of the Municipal Code states,

During the course of, but prior to the end of each fiscal year, the Auditor shall cause an inventory to be taken of all items in the storerooms and warehouses of the City which are then under the supervision of the Purchasing Agent and shall compare such inventory with the stock record to be kept by the Purchasing Agent.

In accordance with §22.0501, the Office of the City Auditor has undertaken a count of the City's inventory at its five storerooms; the results are contained below.

### **Procedures**

The following were the agreed-upon procedures conducted in the FY2009 inventory count:

- Obtained electronic version of stock record that is kept by Purchasing Agent
- Selected a sample, by storeroom, based on a 99% confidence level and 8% confidence interval
- Conducted physical inventory count of the sample at the City's five storerooms
- Compared results of physical inventory count to the stock record
- Provided results of inventory count, by storeroom, to Purchasing Agent

# **Results**

A total of 238 stock items were sampled and counted with a total inventory value of \$313,429.66. Of the stock sampled, we found that the City storerooms are short 35 items with a total value of \$16,577.33. As a percentage of the sample inventory value, this amounts to approximately 5.3 percent.

The table below reflects the results of the count—performed on June 29-30, 2009—by storeroom.

Storeroom	Total Number of Stock Items	Total Inventory Value <sup>1</sup>	Sample Number of Stock Items <sup>2</sup>	Sample Inventory Value	Number of Items Over/Under <sup>3</sup>	Total Value of Items Over/(Under)	Value of Items Over/(Under) as % of Sample Value
1	908	\$494,075.17	73	\$25,673.87	3	(\$5.98)	-0.02%
2	1227	\$1,086,113.23	98	\$236,759.91	16	(\$9,916.24)	-4.19%
42 *	284	\$147,388.76	23	\$20,330.17	0	-	-
75 *	358	\$276,890.90	29	\$17,421.20	16 <sup>4</sup>	(\$6,635.11)	-38.09%
77 *	78	\$26,028.27	15	\$13,244.51	0	-	-
Totals	2855	\$2,030,496.33	238	\$313,429.66	35	(\$16,557.33)	-5.28%

Source: Office of the City Auditor.

### Note:

\* These storerooms are operated and staffed by the San Diego Fire Department (Storeroom 42), San Diego Police Department (Storeroom 75), and Library Department (Storeroom 77).

We made recommendations in our previous Audit of the Central Stores Inventory, dated February 27, 2009, that address the actions that should be taken by management to reduce the risk of inventory shortages.

\_

<sup>&</sup>lt;sup>1</sup> Inventory value as of June 26, 2009.

<sup>&</sup>lt;sup>2</sup> "Sample Number of Stock Items" refers to the number of stock item categories that we counted (i.e. Screwdriver, Wrench Pipe, etc.)

<sup>&</sup>lt;sup>3</sup> "Number of Items Over/Under" refers to total categories of items sampled that had discrepancies when compared to number of items that should be on hand per the inventory system.

<sup>&</sup>lt;sup>4</sup> This does not include two additional items that had discrepancies. For one item, last year's requisitions had not been keyed in. The second item's discrepancy was due to the use of an approximation for the count using the weight of the item.

### THE CITY OF SAN DIEGO

# MEMORANDUM

DATE:

August 3, 2009

TO:

Eduardo Luna, City Auditor

FROM:

Hildred Pepper Jr., Director of Purchasing & Contracting Department

SUBJECT: Central Stores Inventory Count- FY09

In response to the memo regarding the FY09 Inventory Count, conducted on June 29-30, 2009, our staff at Storeroom 2 has been able to reconcile two of the items that were found to be missing. The first item is stock number 292466, a 16" butterfly valve, which shows two missing from inventory for a value difference of (\$5,123). One of the valves was overlooked in the count and is in our possession in the Pipeyard. The other valve was found on a Stores Requisition that had not yet been processed (attached). The second item is stock number 275620, a 45 degree elbow, MJ x MJ, which shows three missing from inventory with a value difference of (\$520.77). This was a one-time special item purchase for WU, Water Operations Division, on 10-28-08. The items were purchased with a P-card, received into inventory on 10-28-08, but the stores requisition had never been processed. The requisition has been located and will be processed in the SAP system (attached). This changes the table that reflects the results of the physical count for Storeroom 2 and the overall totals as outlined below;

Storeroom	Sample # of	Sample Inventory	Number of	Total Value	Value of
	Stock Items	Value	Items Over	of Items Over	Items over
			(Under)	(Under)	(under) as %
					of Sample
					Value
2	98	\$236,759.91	14	(\$4,272.31)	-1.80%
Totals	238	\$313,429.66	34	(\$11,434.17)	-3.48%

We received the detail report by storeroom for the physical count conducted in this audit on August 17, 2009. We are still completing a reconciliation of the results. The delay in completing this reconciliation is due to gaining access to the closed FleetFocus data base. There is one additional item still under review and a possibility that another adjustment to the inventory count may be found. During the discussion we had last fiscal year regarding the annual Central Stores Inventory Audit, it was requested that the results of the physical count be provided to Central Stores as soon as the count was completed. This allows for the reconciliation process for inventory errors to begin right away and properly documented in the Inventory System.

The relationship between P&C/Central Stores and Storerooms 42- Fire Department, 75- PD and 77- Library (referred to as departmental storerooms) is that Central Stores provides the funding for inventory purchases. The departments provide the staffing, supervision and facility. These storerooms are set up to provide materials and supplies exclusively to their own department.

The P&C Department has previously discussed with the PD consolidating Storeroom 75 into Central Stores Storeroom 1. This recommended consolidation would reduce staffing by 1.0 Storekeeper I positions in PD and would improve the operational efficiencies for the PD and tighten internal controls for the distribution of Storeroom 75's inventory. The Police Department has so far not been interested in pursuing this recommendation. The results of the physical count conducted at Storeroom 75 represent 58% of the value of items found to be under as a percentage of the overall sample value of the inventory count. We will use this information to once again recommend to the Police Department that it is in the overall best interest to consolidate Storeroom 75 into Storeroom 1.
